

# DINOSAUR MATCH

COLOR THE DINOSAURS ON THE NEXT PAGE THEN  
MATCH EACH ONE TO THE CORRECT DESCRIPTION

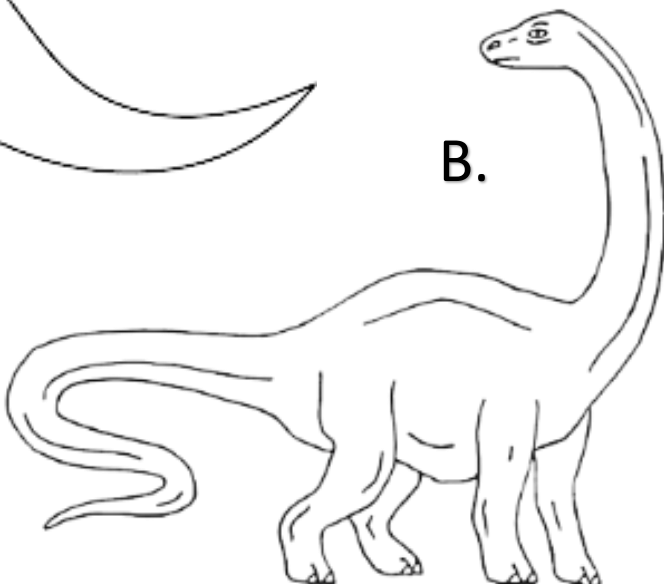

BELOW.

1. \_\_\_\_\_ **Tyrannosaurus Rex**. Carnivore. Size: 15-20 feet tall and 40 feet long. Small arms. Lived during the Cretaceous period. Tail helped it run at speeds of 15 mph.
2. \_\_\_\_\_ **Brachiosaurus**. Long neck. Lived during the mid to late Jurassic period. Lived on mostly flat land due to its size. Believed to have traveled in herds. Ate vegetation.
3. \_\_\_\_\_ **Velociraptor**. Sickle-shaped claw. Small and fast. Lived during the end of the Cretaceous period. The most birdlike dinosaur discovered.
4. \_\_\_\_\_ **Stegosaurus**. Lived during late Jurassic period. Herbivore. Very small brain. 30 feet long. Plates on back called scutes.
5. \_\_\_\_\_ **Triceratops**. Three-horned dinosaur. Lived during late Cretaceous period. Comparable to size of African Elephant. Herbivore. 800 teeth. Frill acted as body armor.

A.
